

Hi, I am Low Peng Guan, I will be 11 years old in November. I started learning violin when I was 3 years old. My violin teacher is Ms Sylvia Khoo, I started learning from her since last December. I study in Catholic High School, and I joined the Strings Ensemble since Primary 1. I am currently the Concert Master. So far, I have participated in SYF twice, and both times we obtained gold/distinction. I am playing Kabalevsky's violin concerto, which is an exciting piece. I like it because it is melodious. The accidentals make it sound like it is changing keys, and the mood also changes a lot. When I play it, I think of the colour yellow. I think it is because of my perfect pitch, which I feel lucky to have as it helps me enjoy music better. I am also playing this piece for my Grade 8 exam this year. In my free time, I play the piano and solve the Rubik's cube.
