

Biography of Tan Yi Hui Jolene

Hello everyone! My name is Jolene Tan and I am 10 years old this year. I will be performing 3 recited pieces for you. Let me share with you more about me. I started learning piano when I was 5 years old. My dad enrolled me to learn piano under Teacher Josephine and not long after I found it really interesting and enjoyable. Since then, playing piano became a hobby to me. Along the way, I learnt that we must have resilience in ourselves and not to give up when we face any challenges. I took grade 3 ABRSM exam last year. I also participated in 2014 SMTA performance festival when I was 6 years old and really enjoyed it. Today, I hope all these years learning journey and effort I had put in for this performance would turn out to be a pleasant evening for all of you. Last but not least, I sincerely hope you will enjoy my piano performance today.
