

Biography of Tan Xin Yu Joelle

Hello everyone! My name is Joelle Tan and I am 8 years old. Today I am going to recite 3 pieces for all of you. Do allow me to share with you more about me. I started learning piano under coaching from Teacher Josephine when I was 7 years old. I have been interested in piano when I was 5 years old. I always wonder how to play with the keys on the piano, however always ended up banging the keys hard and harsh. When my parents saw it, they knew I might not be ready to learn piano. They decided to enrol me to a music teacher whom stays near my neighbourhood and she teaches younger kids to play musical instrument. She taught me the basic scales and music theory. When I turned 7 years old, my parents made the decision to enrol me to be coached under teacher Josephine, she is my sister's piano teacher too! I believed I will not give up on playing piano as it is so lovely and also my most favourite musical instrument. I will appreciate your applause if you like my mini performance today. Thank you for your kind support to Joelle Tan.
