

Joon Kai's love for music blossomed when he was 5 years old and started on his piano journey under the stewardship of his teacher, Alicia Quek.

He had his first public performances in school, when he was invited to take the stage during the annual Teachers' Day's concerts, the Primary 6 Graduation Ceremony and School Award Ceremonies.

Joon Kai was also given the rare opportunity to represent his school during a solo performance at the National Art Gallery in 2016.

On top of that, he has actively participated in recitals organised by his music teacher.

Joon Kai is now 13 years old and currently a semi-finalist in the 2018 Young Talents Project organised by Mediacorp and Symphony 92.4.
