Height : 148 cm

Hobbies : Playing music and drawing

Nationality : Indonesian

My musical journey started at the age of 5, with joining Junior Music Course. Through the journey I do have difficulties learning sight-reading. However, my love of music allowed me to overcome obstacles in learning. I love piano because I like the sound that is created by it. 7 months ago, I started my piano lessons at New Symphonia Music & Education Center. I am very grateful to my piano teacher Ms.Sany Tjiwi for her guidance. I begin to obtain skills and techniques in piano playing and also to develop my passion in music.
