

My name is Lim Jing Rui and I am 9 years old. I am very cheeky and active. I started learning the violin when I was turning 4. I pestered my mother to let me learn the violin after I saw someone playing the instrument at a Taipei hotel and was intrigued by its sound.

I like to listen to jazz and classical music. I did not know about pop music until my good friend introduced it to me, but I still prefer classical music.

I chose to perform Monti's Czardas because I thought it suits my behaviour and mood. The piece is filled with running notes, and I like to run! I feel that the mellow notes go deep into the sea and the high notes soar through the air. I hope you like the piece too!
