

E-Program Notes :

TENDER FLOWER, Burgmuller Op.100

This song that was created by a German pianist, whose name is Friedrich Burgmuller, was part of Op.100 number 10.

When I think of this piece, I imagine a flower that is blown by wind flying in the air following the direction of the flow of the wind. When playing this piece, you will hear the notes ascending and descending gracefully

THE RAINBOW, Ray Moore

Ray Moore was an excellent song composer. This song that he created was a mixture of sad and emotional feeling. I remembered a story in the Bible about Noah that build the ark and survived in the worldwide flood. God promised Noah that he would not destroy Earth with a flood again and gave a sign of His promise which was rainbow. Every time when it rains, we might feel sad or angry because we can't do some activities outside, but after the rain there will be this beautiful, colourful rainbow that god had created.

Tarantella, Serge Prokofiev Op. 65

This unique and lively piece is one of Serge Prokofiev's piece. It is a fast dance. This piece is usually used in a concert. The first part is very lively and fast. The second part is very relaxing and lyrical. The third part is similar with the first part, with different notes, but it will sound like it's the same.
